A REMEDY FOR THE  
Effects of Tobacco.**PRESENT PLEASED**

Over a Message Received  
From Mr. Schurman Late  
Last Night.

**WILL NOT BE MADE PUBLIC**

Philippine Commissioners Will Return  
to Their People With American  
Proposition For a Form of Govern-  
ment—Report From General Otis  
Read at a Cabinet Meeting.

Washington, May 24.—Secretary Hay has received from President Schurman of the Philippine commission a long message giving the results of the meetings thus far held with the native Filipino commission sent by Aguinaldo to treat with the Americans. The message was laid before the president late last night. He was very much gratified at its contents, which were said to be very encouraging for the outlook that something definite may be accomplished. President Schurman reports that the native commissioners will take back to their people the proposition for a form of government, etc., suggested by the American commission. The text of the dispatch was not made public, and will not be.

It was stated on the authority of a gentleman who spent some time with the president that, contrary to reports from Manila, there are no differences of any consequence between the military and civilian members of the committee as to the course to be adopted in dealing with the natives.

**REPORT FROM OTIS**

Read at a Cabinet Meeting Which  
Was Very Gratiating.

Washington, May 24.—A report from General Otis received by mail and read by the president at the cabinet meeting yesterday was pronounced by those who heard it a most interesting summary of the situation in the Philippines. In the main it presented the subject from the military standpoint. But probably the most important contribution is that covering the correspondence between General Otis and Aguinaldo, just preceding the outbreak, showing conclusively that the American commander used every effort to avoid a conflict. The communications from Aguinaldo bear his signature and give little evidence of a conciliatory spirit or a disposition to accept American rule. The members of the cabinet believe that they furnish a conclusive showing of the rectitude of our course in dealing with the uprising.

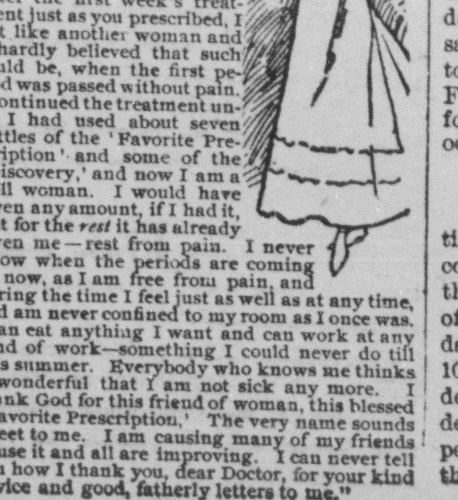

It was felt to be such a strong presentation of the conditions leading up to the insurrection now existing that it was determined to make it public at once. Time was required, however, to make a summary and prepare copies, and these will be given out late today. The report covers about 15 typewritten pages and brings the subject up to about six weeks ago.

The forthcoming civil service order, which the president had under consideration at Hot Springs, was read and it was announced that it would be signed and made public today.

The indication of a division of opinion among the United States commissioners at Manila as to the best method of dealing with the insurgents at this critical stage has aroused deep interest here. Nothing was received at the state department yesterday from President Schurman of the commission, and in General Otis' dispatches to Secretary Alger, or at least all of those made public, there is no reference to any dissatis-

The little god of love turns away from a sickly, sorrowful, nervous, head-ache, back-ache, listless woman. Every woman who has suffered from these ailments should have the beauty, vigor and vigor of perfect health. The bright glow of health, red lips, clear skin, red lips are more attractive than any mere regularity of feature. A woman can't change the shape of her features but any woman may have the beauty of health. No healthy woman can be ugly. No sickly woman can be beautiful.

Regularity of the functions of the distinctively feminine organism is the first essential to woman's happiness, comfort and beauty. Miss Laura Brooks, of Clinch Hancock Co., Tenn., writes: "I thank God for such a remedy as Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' for myself and friends. I believe that had it not been for this wonderful medicine I would today be in my grave. I am sure that I could not have lived many days in the condition I was in at the time I first consulted you. I was only praying to die and be free from pain. I was simply a shadow and we had tried almost everything when a friend, I was advised to write to you, which I did, thinking all the while that it was only foolishness to think that such a case as mine could be cured. But I do not think so today. After the first week's treatment, I felt like another woman, I hardly believed that such good could be when the first period was passed without pain. I continued the treatment until I had used about seven bottles of the 'Favorite Prescription' and some of the 'Discovery,' and now I am a well woman. I would have given any amount, if I had it, just for the relief it has already given me. I am now coming on now, as I am free from pain, and an never confined to my room as I once was. I can eat anything I want and can work at any kind of work—something I could never do till this summer. Everybody who knows me thinks it wonderful that I am not sick any more. I thank God for this friend of woman, this blessed 'Favorite Prescription.' The very name sounds sweet to me. I am causing many of my friends to use it and all are improving. I can never tell you how I thank you, dear Doctor, for your kind advice and good, fatherly letters to me."

faction on his part with the attitude of the civilian members of the commission. It is regarded as perhaps a misfortune that this phase of the situation was not reached before Admiral Dewey, by leaving Manila for home, lost to the commission the benefit of his experience and sound judgment.

It is realized here that much tact is required at this juncture in order, while avoiding extreme measures with the Filipinos, not to fall into the much graver error of losing the expensively bought fruits of the victories of the American army and navy. The war department is inclined to support General Otis, not only because of his connection with the war, but also on the ground that his longer experience with the insurgents better fits him to understand the native character. However, the president is giving the matter his close personal attention, assisted not only by Secretary Hay, who is directly responsible for the instructions given to the commission, but by all of the members of the cabinet, and a proper outcome of the little difference may be expected.

**PEACE JUBILEE.**

Beginning of a Peace Jubilee at  
Washington City.

Washington, May 24.—Beginning with an imposing parade of military and other uniformed organizations and closing with a display of fireworks at night, the national capital yesterday inaugurated a 3-days' peace jubilee. The main thoroughfares of the city and all the public buildings are decorated with bunting, and the attractive programme of parades and festivities has drawn a large number of visitors. With the exception of a shower, which was not of a sufficient duration to mar the occasion, the weather was ideal and Washington yesterday wore its inauguration aspect. The parade, which was the feature of the first day, moved down Pennsylvania avenue between cheering throngs, through the handsome court of honor in front of the white house, and passed in review before the president and a distinguished party of public officials.

The day opened with the boom of big guns from the Dolphin, which, anchored off the navy yard, fired the national salute at sunrise, and church chimers and hundreds of steam whistles joined in the noisy chorus.

**OVATION TO SCHLEY**

Compelled to Make Two Speeches at  
the Omaha Operahouse.

Omaha, May 24.—The tribute of respect and admiration that Omaha people have been paying to Rear Admiral W. S. Schley during the past few days reached its culmination last night at Boyd's Operahouse, when the admiral was the guest of General Manderson, and occupied a box to witness Richard Mansfield's production of "Cyrano de Bergerac." The admiral entered the theater about 10 minutes before the curtain rose, and the immense audience rose and cheered to the echo. He responded to the greeting by bowing, but that was not sufficient, as the audience kept up the applause until he rose and made a brief speech.

At the close of the first act the ovation began again and continued for fully 10 minutes. It culminated when Mayor Moores leaped upon the stage and proposed three cheers for the hero of Santiago. The response nearly raised the roof and Schley had to make another speech. It was a full dress affair, and the house was crowded to the doors by the best people of Omaha.

**Has No Political Significance.**

Chicago, May 24.—United States Senator M. A. Hanna, chairman of the Republican national committee, is at the Auditorium hotel in this city. Mr. Hanna was in consultation with Marvin Hughitt, president of the Northwestern Railroad company. When asked if his visit had any political significance, Senator Hanna said: "I am here for business purposes only, and have some important matters to discuss with Mr. Hughitt. My trip has no political significance at all."

**Fitzsimmons-Jeffries Fight.**

New York, May 24.—The Fitzsimmons-Jeffries fight is to take place at night instead of on the afternoon of June 9. The directors of the Coney Island Sporting club held a meeting and decided on this change. Mr. Brady said that 83 boxes had been sold, the total sum paid for them being \$7,950. Frank Dwyer has received \$5,000 to bet for westerners to bet on Fitzsimmons at odds of 8 to 5.

**Laundry Trust.**

Chicago, May 23.—With a capitalization of \$7,000,000 the Chicago Laundry company is about to become a factor on the local stock market. The prospectus of the new concern was issued yesterday. It is claimed that 75 out of the 100 steam laundries in Chicago are under contract of purchase. The remainder, the promoters say, will be compelled within a short time to come into the consolidation.

**THE HAGUE MEETING**

Measure Taken to Preserve  
Secrecy at the Con-  
ference.

**RECEPTION BY THE QUEEN**

To Be Tendered the Delegates To-  
night—International Law May Be  
One of the Subjects Discussed by  
the Delegates—Code Prepared Which  
Provides For Autonomy of Nations.

The Hague, May 24.—Measures to preserve the secrecy of the peace conference have been redoubled. Only the delegates and secretaries are admitted to the precincts of the Huis Ten Bosch. Both entrances to the gardens are closed with barred gates, which are guarded by sentries under the command of non-commissioned officers in full uniform. Every applicant for admission is called upon to produce an orange colored card issued to the delegates and to give the secret password.

Queen Wilhelmina of the Netherlands, accompanied by the queen's mother, arrived last evening and drove through the streets, their majesties being most warmly greeted by the populace. At 5 o'clock this afternoon the queen will receive the chiefs of the various delegations, who will be presented by M. de Beaufort, minister of foreign affairs.

All the delegates have received invitations to a grand reception at 9:30 this evening, when the delegation chiefs will introduce their colleagues and the wives of the latter to the queen.

Emperor Nicholas has sent Queen Wilhelmina the Order of St. Catherine, set in brilliants.

**INTERNATIONAL LAW.**

One of the Subjects Likely to Be Dis-  
cussed by the Conference.

London, May 24.—The correspondent of The Morning Post at The Hague says: "The question of international law is likely to be discussed by the conference. An eminent professor says that international jurisdiction has never been officially recognized, despite the resolutions of peace congresses, nor can an international agreement bind nations to enforce decrees pronounced according to such law."

"The code prepared for the submission to the conference provides that there is no right of conquest as between them, that they possess the right of law equally as individuals, that no nation has a right to declare war upon another and that disputes between nations are to be settled by legal methods."

"The colonial section of the code deals with the formation of colonies. It recognizes their right to claim autonomy or independence, though other nations may intervene when, in their opinion the administration is unsatisfactory or the mother country does not heed the colonial representations."

**WOODMEN OF THE WORLD**

Not a Fraternal Organization According  
to Missouri Supreme Court.

Jefferson City, Mo., May 24.—Division No. 1 of the supreme court yesterday rendered an important decision of interest to members of fraternal insurance associations all over the country. It holds that when the superintendent of the insurance department has acted fairly on applications for license to do business as a fraternal association and has decided that such association is not a fraternal association under the law and has refused such license, the supreme court has no right by mandamus to compel him to reverse this decision and issue the license. The case decided was that of the Woodmen of the World of Omaha, of which C. J. Root is president, against Superintendent of Insurance of O'Rear for a writ of mandamus to compel that official to issue a license to the relator as a fraternal beneficiary association. The writ was refused in the unanimous opinion of the court. O'Rear refused the license on the ground that the Woodmen of the World was not a fraternal association under the law because it did not have a representative form of government.

**MAJOR MARCHAND'S**

Arrival in France May Mean a Revo-  
lution in the Republic.

Paris, May 24.—If many more speeches are made such as that of Francois Coppee there is much danger of Major Marchand's arrival in Paris being the signal for a coup d'etat. Marchand is expected to arrive at Tonlon about Friday and be received with a grand fete. There is much enthusiasm of the Nationalists over him, and they will lionize him as much as possible. The government appreciates this, and is doing all it can by soft speeches to win the army.

Thus, for instance, President Loubet, in discussing the army, in his short speech at Dijon, said as much as did Premier Dupuy, and his remarks are being widely commented upon. He said: "The army is the nation itself. It comes from the people, and returns to it, and from them partakes of the noble sentiments of the nation, and, alas! sometimes of their passions also. But how could the army be otherwise than profoundly patriotic and devoted to the republic and the government."

And I, for one, may say I have always had the greatest solicitude for the welfare of the army, and I will never abandon it, as I am most deeply attached to it."

This speech was evidently designed to offset the feeling that has grown of late that the army is to be dealt with harshly. But it cannot undo the effect of the feeling, and if a few more speeches like that of Coppee's are made Marchand may be even more than Boulanger.

Coppee said: "Marchand is a hero, a brave and popular soldier, possessing those great virtues which qualify him for any command, and to command anywhere where he has the chieftains. But history must not repeat itself, yet I would remind you that in France just 100 years ago, these same words, 'the return from Egypt,' signified the end of a period of shame and of trouble similar to that through which we have just passed."

The speech is considered by many as the opening gun in the cause of nationalism.

Telephone No. 42

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

WEDNESDAY, MAY 24, 1899.

NEXT Tuesday is Decoration Day, a day that means much to the patriotic people of this country.

EVERY member of the Commercial Club should be at the special meeting tonight. There is business of importance that all should be interested in.

THE Columbus Herald seems to agree with the REPUBLICAN on the subject of trusts, but begs that the democrats be given a chance at them. But when did the democratic party ever get together and solve a question of moment?

A good city directory is very much needed in Seymour. The work for such a directory has already begun and we trust that the enterprise will have the support generally of our citizens. It will oftentimes prove a great convenience that you will appreciate.

VINCENNES has spent considerable time and money the past six months on electric light plans and specifications and advertising for bids on the same. They advertised three separate times for bids, the last of which were opened Monday night. Only four bids were received. The Commercial says the bids of the two home companies are decidedly the best, all things considered, and advocates that the contract be awarded to home people. The bids are higher than the one made by Seymour people to light Seymour. Vincennes has 175 arc lights.

### DIED.

CAMPBELL—Wales M. Campbell died at his home on Brown street at nine o'clock this forenoon. For several days he had been dangerously sick having heart and chronic liver trouble. Mr. Campbell was born at Charlestown, March 2, 1840. When a small boy his father died and he and his mother moved to Jennings county. February 8, 1864, he was married to Miss Louise Stewart. He was recorder of Jennings county eight years. In 1885 he moved with his family to Seymour where they have since resided. He was engaged in the insurance and real estate business and was quite successful. The deceased had not been in good health for many years. Two weeks ago he was confined to his bed and his condition was regarded as dangerous from the first. He was one of Seymour's best citizens and was held in high esteem by all. A wife and two daughters, Misses Nora and Maggie, survive who have the tender sympathy of a host of friends. Funeral at 2 o'clock Friday from the residence. Interment at Riverview.

### TAMPICO.

Geo. Steinkamp was here on business last Friday.

Miss Lizzie Becker, of Louisville, is visiting her parents here.

Will Tercorn will work at Brownstown laying pipes for the water works.

J. Brannaman drove a fine lot of short-horn cattle through here Monday.

John Dancke sold over a hundred bushel of wheat to the Ewing Mill Co., Tuesday.

Strawberries are on hand now and cherries will be ripe soon. The crop is not so large as it might have been.

Prof. Hall's spring term did not close last Friday but will close this week. His term has been a very interesting one. Prof. Hall is a wide-awake instructor and meets with success where ever he goes.

A number from here attended the Children's day exercises at Sauer's last Monday. The three districts the northern, middle and southern united and prepared an excellent program which took place in the old picnic grove. Rev. Pohlman and Professors Baumgart, Fell-wick and Dona took great interest in making this a merry day for the children. A large crowd was present.

Miss Rosa Marshall went to Louisville today to visit friends and relatives.

## THE SEYMOUR NEWS

Plant Has Been Shipped to Cheyenne, Wyoming.

The last issue of the Seymour Weekly News appears this week and the plant has been loaded for shipment and will leave tonight for Cheyenne, Wyoming, where Mr. Burkart will start a new democrat paper, the Wyoming State Democrat. The first issue of the paper will be out June 10. It will be a weekly at the outset, but in about three months a daily will be started. There is no paper of the democratic persuasion now published at the state capitol and only one in the state. Mr. Burkart has interested a number of prominent western politicians in the newspaper, and he regards the outlook as quite flattering.

The subscription list and good will of the News have been purchased by the REPUBLICAN and the two lists will be consolidated. Both personally and in a business way the relations between Mr. Burkart and the publishers of the REPUBLICAN have been pleasant and we sincerely hope that he may find his new field both pleasant and profitable.

Mr. and Mrs. Burkart will leave about the middle of next week for their new field. Miss Frances Werning who has been a compositor on the News here, will accompany them.

THE fee of \$1.00 must be sent with the MSS. in each division.

Applicants for 12, 24 or 36 months' State License use the same questions that are used in the regular county examination, and the same per cents are required.

Applicants for teachers' license are required to produce a certificate of good moral character signed by the trustee or other satisfactory authority.

An Institute fee, 75c, is required at the examination.

The examination will be held this month at the Brownstown High School building, and the Shields High School building, Seymour.

### The Lute-Cross Trial.

The suit of Henry M. Lutes vs. James M. Cross which occupied the attention of the circuit court four days is yet undecided, has attracted much attention throughout the county. The amount of money at stake was only \$10 but the question of honesty was involved and for that reason neither side would yield.

Their difference arose over the settlement of an account that Lutes, who is a merchant at Freetown, held against Cross. In March after the close of Cross' school Lutes asked for a settlement. Cross came in and was told that he owed \$45. Cross thought he did not owe that much. Lutes stepped back to his desk to have his clerk calculate some interest leaving the book on the counter. A later examination of the book showed an inclined credit of \$10. Lutes claims that neither he nor his clerk made the interlineation and his theory is that Cross did this himself when the book was open before him the day he came in to settle. Cross agreed to pay the amount in full if Lutes would sign a statement exonerating him from any charge of meddling with the book. This he would not do, so they went to court.

The case was tried three times before the justice in Salt Creek township. The jury disagreed twice but gave judgment favorable to Cross the third time. Then the case was appealed. The costs now amount to about \$350.

## Important to Teachers.

The examination for High School license will be held in May, June and July. May closes the examinations for primary license this year. For May, June, July and Aug. examinations, 1899, there will be two sets of questions in the Science of Education, one based on Plato's Republic and one on general Pedagogy. The applicants will be allowed to write on either set of questions they desire.

The questions in Literature will be drawn from both American and English literature, being elementary in character.

The requirements for a sixty months' license as provided for in H. B. No. 351 of the last Legislature, are as follows:

The first division an average of 95 per cent., not falling below 85 per cent. in the "common branches."

The second division, an average of 75 per cent., not falling below 60 per cent. in any of the five branches as follows:

Group 1. Literature and Composition. (Required by all applicants.)

Group 2. Algebra or Geometry. (One required.)

Group 3. Botany, Zoology, Chemistry, Physics or Physical Geography. (One required.)

Group 4. History and Civics or Latin. (One required.)

Group 5. One subject from "2," "3" or "4" not already taken.

Five subjects are required in this division.

In order to secure a sixty months' license the MSS. of both divisions must be sent to the State Department by number, for graduation.

The fee of \$1.00 must be sent with the MSS. in each division.

Applicants for 12, 24 or 36 months' State License use the same questions that are used in the regular county examination, and the same per cents are required.

Applicants for teachers' license are required to produce a certificate of good moral character signed by the trustee or other satisfactory authority.

An Institute fee, 75c, is required at the examination.

The examination will be held this month at the Brownstown High School building, and the Shields High School building, Seymour.

### Exposes the "Divine Healer."

I have been amused over the recent controversy between a Medora and the Pea Ridge correspondents about the so called "divine healer," or "bumbug" whichever it may be.

The facts in the case ought to be known to the public. Silence may be the means of further deception of the unsuspecting.

The facts are that Miss Alice Gray who was reported to have been cured by the "divine healer," has not been under a doctor's care for thirty months, as the Medora writer stated. The doctor said she could not be permanently cured, and she is today just in the same condition, she was before seeing "Healer Barnes." True Barnes did by his hypnotism or whatever you may choose to call it, prevail on her to walk out and try to think she was well, even in her weak condition. But she is not well and does not belong to that class that can be cured by impressions on her mind.

Other cases could be cited. Why even Mrs. Eddy, the author of the "Philosophy of Spiritual Healing" has not been a well woman for 40 years. When she preached, which was seldom, her sermons were as like as dried peas, yet her admirers were unconscious of having heard the same address before. They were carried away with her words but never could tell what truths she expressed.

Now to the defender of this "Divine Healer" we would say, if you will study mental science, you will not only learn what his "peculiar power" is, but you will also learn how to detect impostors who impose on the innocent and do them great harm.

# WINE OF CARDUI

## Woman's Crowning Virtue.

Boston, Mo., July 27.  
For years I suffered terrible pains every month and my doctor told me I could not be cured except by an operation. I felt I could not submit to that and was so despondent I had given up all hopes of a cure. My husband insisted on my trying Wine of Cardui and at last thank God I did try it. Last month I did not have a pain, and did all my work, which I had not done in seven years.

MRS. MINNIE LITTLE.

## Wine of Cardui

Modesty is the crowning virtue of American women. It is the trait that all mankind admires. A modest woman is the most pleasing of all created things. Because of this becoming virtue thousands of women prefer to suffer untold miseries rather than confide their troubles to a physician, and to even think of submitting to an examination is revolting. They can't get their own consent to an operation. Wine of Cardui permits sensitive women to retain their modesty. With it they can cure "female troubles" in the quiet of their own rooms. If special treatment is required they can write to the Advisory Department of the Chattanooga Medicine Co., and their letters will be promptly answered by women trained in the cure of women's weaknesses and irregularities. There should be no hesitation. Delayed treatment means a chronic condition. The longer postponed the harder to cure.

Brilliant Spectacle Was the Sham Battle by the Boys in the Recent War.

## SHOT BY HIS OWN TRAP

Which He Had Set in His Corner for Burglars—Sunday Baseball Law Constitutional—Perry S. Heath Becomes a New York Banker—Other State News.

Terre Haute, Ind., May 24.—This city is crowded with people attending the state encampment G. A. R. and many more are expected. Fully 20,000 people witnessed the sham battle yesterday afternoon. Six companies of infantry and two batteries of artillery of the National Guard of Indiana took part in the battle. There was a Spanish fort defended by a battery of artillery and a detachment of infantry under the command of Captain Allen of Frankfort, late of the One Hundred and Fifty-eighth Indiana volunteers, and an attacking force of American infantry and artillery under the command of Major Rich of Indianapolis. The maneuvers of these splendidly drilled troops as they approached the fort, the skirmish, the musketry and artillery duel, and the final assault and capture of the Spanish fort was a spectacle such as was never before seen in Indiana and rarely witnessed anywhere except in actual warfare. A reception at Normal hall last night was a notable affair.

### MRS. DOXEY

Death of the Widow of the Late C. T. Doxe, of Anderson.

Anderson, Ind., May 24.—Word has been received here from Thomas N. Stillwell at Staten Island, N. Y., that his sister Mrs. Minnie Doxe, widow of the late Charles T. Doxe of this city, had expired suddenly at the home of her sister Mrs. Deftrees Critten.

The death of Mrs. Doxe has cast a gloom over the whole city, and it is the general belief here that she died of a broken heart. During the long illness of the late Major Doxe she was with him continually, accompanying him to Arkansas and Florida. Her decline in health has been rapid since her husband's death, and the efforts of friends and relatives failed to cheer her. Just before leaving for Staten Island she expressed fear that she would not be contented away from her old home. She had recently returned from Hot Springs, Ark. Mrs. Doxe was 43 years old, and leaves no children.

### FAITHFUL DOG.

Saves His Drunken Owner From Being Robbed on the Highway.  
St. Croix, Ind., May 24.—Levi Once, a peddler, passed through here a few days ago accompanied by a large Newfoundland dog. Once had evidently been drinking and he returned to town several times, procuring more intoxicants. Yesterday he was found on the roadside near here apparently unconscious, with the dog on guard. The dog had been shot in the hind leg and otherwise injured, and he held one foot on a piece of bloodstained cloth, torn from some one's trousers. The man was supposed to be dead, and after considerable difficulty the dog was lassoed and dragged aside. Instead Once was stupidly drunk. His rescuers found \$85 in cash, and \$215 in negotiable notes. The bloodstained cloth and the hat found near by evidently belonged to some would-be robber, who was driven off by the dog.

Looking For a Hotel Swindler.  
Richmond, Ind., May 24.—The local police department is endeavoring to locate a stranger registering as Cohen, a supposed professional crook, who successfully "worked" the Westcott hotel a few days ago. He cashed a worthless check for \$50 on the Monongahela bank at Pittsburgh, purporting to be drawn by Zugsmith & Finegold, for whom Cohen claimed to be travelling. The police have information that Cohen was at Port Wayne before coming here, and that he successfully worked several people in various ways.

Shot by His Burglar Trap.  
Greensburg, Ind., May 24.—Tom Hargitt, a farmer, living south of this city, was shot yesterday and dangerously injured. Mr. Hargitt had suspected some one of stealing corn from his crib and prepared a trap so that when the crib door should be opened a shot would be fired at the intruder. Mr. Hargitt forgot about his trap and opened the door himself, receiving the contents of a double-barrelled shotgun.

Will Have to Replant Corn.  
Chestertown, Ind., May 23.—Much of the corn planted has failed to sprout because of the continued cold weather. Grub worms are also at work, and at least two-thirds of the corn that has sprouted will have to be replanted. Unless nipped by the frost, there will be an abundance of berries, apples, pears and cherries. Wheat and oats indicate a good yield.

## PRESIDENT RELEASED

Over a Message Received  
From Mr. Schurman Late  
Last Night.

## WILL NOT BE MADE PUBLIC

Philippine Commissioners Will Return  
to Their People With American  
Proposition For a Form of Govern-  
ment—Report From General Otis  
Read at a Cabinet Meeting.

Washington, May 24.—Secretary Hay has received from President Schurman of the Philippine commission a long message giving the results of the meetings thus far held with the native Filipino commission sent by Aguinaldo to treat with the Americans. The message was laid before the president late last night. He was very much gratified at its contents, which were said to be very encouraging for the outlook that something definite may be accomplished. President Schurman reports that the native commissioners will take back to their people the proposition for a form of government, etc., suggested by the American commission. The text of the dispatch was not made public, and will not be.

It was stated on the authority of a gentleman who spent some time with the president that, contrary to reports from Manila, there are no differences of any consequence between the military and civilian members of the committee as to the course to be adopted in dealing with the natives.

## REPORT FROM OTIS

Read at a Cabinet Meeting Which  
Was Very Gratiating.

Washington, May 24.—A report from General Otis received by mail and read by the president at the cabinet meeting yesterday was pronounced by those who heard it a most interesting summary of the situation in the Philippines. In the main it presented the subject from the military standpoint. But probably the most important contribution is that covering the correspondence between General Otis and Aguinaldo, just preceding the outbreak, showing conclusively that the American commander used every effort to avoid a conflict. The communications from Aguinaldo bear his signature and give little evidence of a conciliatory spirit or a disposition to accept American rule. The members of the cabinet believe that they furnish a conclusive showing of the rectitude of our course in dealing with the uprising.

It was felt to be such a strong presentation of the conditions leading up to the insurrection now existing that it was determined to make it public at once. Time was required, however, to make a summary and prepare copies, and these will be given out late today. The report covers about 15 typewritten pages and brings the subject up to about six weeks ago.

This forthcoming civil service order, which the president had under consideration at Hot Springs, was read and it was announced that it would be signed and made public today.

The indication of a division of opinion among the United States commissioners at Manila as to the best method of dealing with the insurgents at this critical stage has aroused deep interest here. Nothing was received at the state department yesterday from President Schurman of the commission, and in General Otis' dispatches to Secretary Alger, or at least all of those made public, there is no reference to any dissension.

The little god of love turns away from a sickly, nervous, head-achey, back-achey, lifeless woman. Every woman should have the beauty, vivacity, and vigor of perfect health. The bright glow of health, bright eyes, clear skin, red lips are more attractive than any mere regularity of feature. A woman can't change the shape of her features but any woman may have the beauty of health. No healthy woman can be ugly. No sickly woman can be beautiful.

Regularity of the functions of the distinctively feminine organism is the first essential to womanly happiness, comfort and beauty. Miss Laura Brooks, of Clinch, Hancock Co., Tenn., writes: "I thank God for such a remedy as Dr. Pierce's Favorite Prescription and Golden Medical Discovery, for myself and friends honestly believe that had it not been for these wonderful medicines I would today be in my grave. I am sure that I could not have lived many days in the condition I was in at the time I first consulted you. I was only praying to die and be free from pain. I was simply a mass of suffering. I was so weak and almost everything I tried to do through a friend, I was advised to write to you. The while that it was only a case of mine could be cured. But I do not think so today. After the first week's treatment, I felt like another woman and I hardly believe that such could be, when the first period was passed without pain. I continued the treatment until I had used about seven bottles of the 'Favorite Prescription' and some of the 'Golden Medical Discovery' and now I am a well woman. I would have given any amount, if I had it, just for the rest it has already given me—rest from pain, and am never confined to my room as I once was, and I can do anything I want and can work at any kind of work—something I could never do till this summer. Everybody who knows me thinks I wonder that I am not sick any more. I thank God for this friend of women, this 'Favorite Prescription.' The very name sounds sweet to me. I am causing many of my friends to use it and all are improving. I can never tell you how I thank you, dear Doctor, for your kind advice and good, fatherly letters to me."

faction on his part with the attitude of the civilian members of the commission. It is regarded as perhaps a misfortune that this phase of the situation was not reached before Admiral Dewey, by leaving Manila for home, lost to the commission the benefit of his experience and sound judgment.

It is realized here that much tact is required at this juncture in order, while avoiding extreme measures with the Filipinos, not to fall into the much graver error of losing the expensively bought fruits of the victories of the American army and navy. The war department is inclined to support General Otis, not only because of his connection with the war, but also on the ground that his longer experience with the insurgents better fits him to understand the native character. However, the president is giving the matter his close personal attention, assisted not only by Secretary Hay, who is directly responsible for the instructions given to the commission, but by all of the members of the cabinet, and a proper outcome of the little difference may be expected.

## PEACE JUBILEE

Beginning of a Peace Jubilee at  
Washington City.

Washington, May 24.—Beginning with an imposing parade of military and other uniformed organizations and closing with a display of fireworks at night, the national capital yesterday inaugurated a 3-days' peace jubilee. The main thoroughfares of the city and all the public buildings are decorated with bunting, and the attractive programme of parades and festivities has drawn a large number of visitors. With the exception of a shower, which was not of a sufficient duration to mar the occasion, the weather was ideal and Washington yesterday wore its inauguration aspect. The parade, which was the feature of the first day, moved down Pennsylvania avenue between cheering throngs, through the handsome court of honor in front of the white house, and passed in review before the president and a distinguished party of public officials.

The day opened with the boom of big guns from the Dolphin, which, anchored off the navy yard, fired the national salute at sunrise, and church chimers and hundreds of steam whistles joined in the noisy chorus.

## Ovation to Schley

Compelled to Make Two Speeches at  
the Omaha Operahouse.

Omaha, May 24.—The tribute of respect and admiration that Omaha people have been paying to Rear Admiral W. S. Schley during the past few days reached its culmination last night at Boyd's Operahouse, when the admiral was the guest of General Manderson, and occupied a box to witness Richard Mansfield's production of "Cyrano de Bergerac." The admiral entered the theater about 10 minutes before the curtain rose, and the immense audience rose and cheered to the echo. He responded to the greeting by bowing, but that was not sufficient, as the audience kept up the applause until he rose and made a brief speech.

At the close of the first act the ovation began again and continued for fully 10 minutes. It culminated when Mayor Moores leaped upon the stage and proposed three cheers for the hero of Santiago. The response nearly raised the roof and Schley had to make another speech. It was a full dress affair, and the house was crowded to the doors by the best people of Omaha.

Chicago, May 24.—United States Senator M. A. Hanna, chairman of the Republican national committee, is at the Auditorium hotel in this city. Mr. Hanna was in consultation with Marvin Huggitt, president of the Northwestern Railroad company. When asked if his visit had any political significance, Senator Hanna said: "I am here for business purposes only, and have some important matters to discuss with Mr. Huggitt. My trip has no political significance at all."

## Fitzsimmons-Jeffries Fight.

New York, May 24.—The Fitzsimmons-Jeffries fight is to take place at night instead of on the afternoon of June 9. The directors of the Coney Island Sporting club held a meeting and decided on this change. Mr. Brady said that 83 boxes had been sold, the total sum paid for them being \$7,950. Frank Dwyer has received \$5,000 to bet for westerners to bet on Fitzsimmons at odds of 8 to 5.

## THE HAGUE MEETING

Measure Taken to Preserve  
Secrecy at the Con-  
ference.

## RECEPTION BY THE QUEEN

To Be Tendered the Delegates To-  
night—International Law May Be  
One of the Subjects Discussed by  
the Delegates—Code Prepared Which  
Provides For Autonomy of Nations.

The Hague, May 24.—Measures to preserve the secrecy of the peace conference have been redoubled. Only the delegates and secretaries are admitted to the precincts of the Huis Ten Bosch. Both entrances to the gardens are closed with barred gates, which are guarded by sentries under the command of non-commissioned officers in full uniform. Every applicant for admission is called upon to produce an orange colored card issued to the delegates and to give the secret password.

Queen Wilhelmina of the Netherlands, accompanied by the queen's mother, arrived last evening and drove through the streets, their majesties being most warmly greeted by the populace. At 5 o'clock this afternoon the queen will receive the chiefs of the various delegations, who will be presented by M. de Beaufort, minister of foreign affairs.

All the delegates have received invitations to a grand reception at 9:30 this evening, when the delegation chiefs will introduce their colleagues and the wives of the latter to the queen.

Emperor Nicholas has sent Queen Wilhelmina the Order of St. Catherine, set in brilliants.

## INTERNATIONAL LAW.

One of the Subjects Likely to Be Dis-  
cussed by the Conference.

London, May 24.—The correspondent of The Morning Post at The Hague says: "The question of international law is likely to be discussed by the conference. An eminent professor says that international jurisdiction has never been officially recognized, despite the resolutions of peace congresses, nor can an international agreement bind nations to enforce decrees pronounced according to such law."

"The code prepared for the submission to the conference provides that the autonomy of nations is inviolable, that there is no right of conquest as between them, that they possess the right of law equally as individuals, that no nation has a right to declare war upon another and that disputes between nations are to be settled by legal methods."

"The colonial section of the code deals with the formation of colonies. It recognizes their right to claim autonomy or independence, though other nations may intervene when, in their opinion the administration is unsatisfactory or the mother country does not heed the colonial representations."

## WOODMEN OF THE WORLD

Not a Fraternal Organization Accord-  
ing to Missouri Supreme Court.

Jefferson City, Mo., May 24.—Division No. 1 of the supreme court yesterday rendered an important decision of interest to members of fraternal insurance associations all over the country.

It holds that when the superintendent of the insurance department has acted fairly on applications for license to do business as a fraternal association and has decided that such association is not a fraternal association under the law and has refused such license, the supreme court has no right by mandamus to compel him to reverse this decision and issue the license. The case decided was that of the Woodmen of the World of Omaha, of which C. J. Root is president, against Superintendent of Insurance of O'Rear for a writ of mandamus to compel that official to issue a license to the relator as a fraternal beneficiary association. The writ was refused in the unanimous opinion of the court. O'Rear refused the license on the ground that the Woodmen of the World was not a fraternal association under the law because it did not have a representative form of government.

## MAJOR MARCHAND'S

Arrival in France May Mean a Revo-  
lution in the Republic.

Paris, May 24.—If many more speeches are made such as that of Francois Coppee there is much danger of Major Marchand's arrival in Paris being the signal for a coup d'etat. Marchand is expected to arrive at Tonlon about Friday and be received with a grand fete. There is much enthusiasm of the Nationalists over him, and they will lionize him as much as possible. The government appreciates this, and is doing all it can by soft speeches to win the army.

Thus, for instance, President Loubet, in discussing the army, in his short speech at Dijon, said as much as did Premier Dupuy, and his remarks are being widely commented upon. He said: "The army is the nation itself. It comes from the people, and returns to it, and from them partakes of the noble sentiments of the nation, and, alas! sometimes of their passions also. But how could the army be otherwise than profoundly patriotic and devoted to the republic and the government. And I, for one, may say I have always had the greatest solicitude for the welfare of the army, and I will never abandon it, as I am most deeply attached to it."

This speech was evidently designed to offset the feeling that has grown of late that the army is to be dealt with harshly. But it cannot undo the effect of the feeling, and if a few more speeches like that of Coppee's are made Marchand may be even more than Boulanger.

Coppee said: "Marchand is a hero, a brave and popular soldier, possessing those great virtues which qualify him for any command, and to command anywhere if he has the chieftains. But history must not repeat itself, yet I would remind you that in France just 100 years ago, these same words, 'the return from Egypt,' signified the end of a period of shame and of trouble similar to that through which we have just passed."

The speech is considered by many as the opening gun in the cause of nationalism.

Entered at the Seymour, Indiana, Postoffice as Second-class Matter.

WEDNESDAY, MAY 24, 1899.

NEXT Tuesday is Decoration Day, a day that means much to the patriotic people of this country.

EVERY member of the Commercial Club should be at the special meeting tonight. There is business of importance that all should be interested in.

THE Columbus Herald seems to agree with the REPUBLICAN on the subject of trusts, but begs that the democrats be given a chance at one. But when did the democratic party ever get together and solve a question of moment?

A good city directory is very much needed in Seymour. The work for such a directory has already begun and we trust that the enterprise will have the support generally of our citizens. It will often prove a great convenience that you will appreciate.

VINCENNES has spent considerable time and money the past six months on electric light plans and specifications and advertising for bids on the same. They advertised three separate times for bids, the last of which were opened Monday night. Only four bids were received. The Commercial says the bids of the two home companies are decidedly the best, all things considered, and advocates that the contract be awarded to home people. The bids are higher than the one made by Seymour people to light Seymour. Vincennes has 175 arc lights.

### DIED.

CAMPBELL—Wales M. Campbell died at his home on Brown street at nine o'clock this forenoon. For several days he had been dangerously sick having heart and chronic liver trouble. Mr. Campbell was born at Charlestown, March 2, 1840. When a small boy his father died and he and his mother moved to Jennings county. February 8, 1864, he was married to Miss Louise Stewart. He was recorder of Jennings county eight years. In 1885 he moved with his family to Seymour where they have since resided. He was engaged in the insurance and real estate business and was quite successful. The deceased had not been in good health for many years. Two weeks ago he was confined to his bed and his condition was regarded as dangerous from the first. He was one of Seymour's best citizens and was held in high esteem by all. A wife and two daughters, Misses Nora and Maggie, survive who have the tender sympathy of a host of friends. Funeral at 2 o'clock Friday from the residence. Interment at Riverview.

Geo. Steinkamp was here on business last Friday. Miss Lizzie Becker, of Louisville, is visiting her parents here. Will Tercorn will work at Brownstown laying pipes for the water works. J. Branaman drove a fine lot of short horn cattle through here Monday.

A number of our farmers are tending corn in Muscatuck bottoms this year. John Dancke sold over a hundred bushel of wheat to the Ewing Mill Co., Tuesday.

Strawberries are on hand now and cherries will be ripe soon. The crop is not so large as it might have been.

Prof. Hall's spring term did not close last Friday but will close this week. His term has been a very interesting one. Prof. Hall is a wide-awake instructor and meets with success where ever he goes.

A number from here attended the Children's day exercises at Sauer's last Monday. The three districts the northern, middle and southern united and prepared an excellent program which took place in the old picnic grove. Rev. Pohlman and Professors Baumgart, Fell-wold and Dona took great interest in making this a merry day for the children. A large crowd was present.

## THE SEYMOUR NEWS

Plant Has Been Shipped to Cheyenne, Wyoming.

The last issue of the Seymour Weekly News appears this week and the plant has been loaded for shipment and will leave tonight for Cheyenne, Wyoming, where Mr. Burkart will start a new democrat paper, the Wyoming State Democrat. The first issue of the paper will be out June 10. It will be a weekly at the outset, but in about three months a daily will be started. There is no paper of the democratic persuasion now published at the state capitol and only one in the state. Mr. Burkart has interested a number of prominent western politicians in the newspaper, and he regards the outlook as quite flattering.

The subscription list and good will of the News have been purchased by the REPUBLICAN and the two lists will be consolidated. Both personally and in a business way the relations between Mr. Burkart and the publishers of the REPUBLICAN have been pleasant and we sincerely hope that he may find his new field both pleasant and profitable. Mr. and Mrs. Burkart will leave about the middle of next week for their new field. Miss Frances Werning who has been a compositor on the News here, will accompany them.

### The Lute-Cross Trial.

The suit of Henry M. Lutes vs. James M. Cross which occupied the attention of the circuit court four days is yet undecided, has attracted much attention throughout the county. The amount of money at stake was only \$10 but the question of honesty was involved and for that reason neither side would yield.

Their difference arose over the settlement of an account that Lutes, who is a merchant at Freetown, held against Cross. In March after the close of Cross' school Lutes asked for a settlement. Cross came in and was told that he owed \$45. Cross thought he did not owe that much. Lutes stepped back to his desk to have his clerk calculate some interest leaving the book on the counter. A later examination of the book showed an inclined credit of \$10. Lutes claims that neither he nor his clerk made the interlineation and his theory is that Cross did this himself when the book was open before him the day he came in to settle. Cross agreed to pay the amount in full if Lutes would sign a statement exonerating him from any charge of meddling with the book. This he would not do, so they went to court.

The case was tried three times before the justice in Salt Creek township. The jury disagreed twice but gave judgment favorable to Cross the third time. Then the case was appealed. The costs now amount to about \$350.

### Exposes the "Divine Healer."

MR. EDITOR: I have been amused over the recent controversy between a Medora and the Pea Ridge correspondents about the so-called "divine healer," or "humbler" whichever it may be.

The facts in the case ought to be known to the public. Silence may be the means of further deception of the unsuspecting.

The facts are that Miss Alice Gray who was reported to have been cured by the "divine healer," has not been under a doctor's care for thirty months, as the Medora writer stated. The doctor said she could not be permanently cured, and she is today just in the same condition she was before seeing "Healer Barnes." True Barnes did by his hypnotism or whatever you may choose to call it, prevail on her to walk out and try to think she was well, even in her weak condition. But she is not well and does not belong to that class that can be cured by impressions on her mind.

Other cases could be cited. Why even Mrs. Eddy, the author of the "Philosophy of Spiritual Healing" has not been a well woman for 40 years. When she preached, which was seldom, her sermons were as like as dried peas, yet her admirers were unconscious of having heard the same address before. They were carried away with her words but never could tell what truths she expressed.

Now to the defender of this "Divine Healer" we would say, if you will study mental science, you will not only learn what his "peculiar power" is, but you will also learn how to detect impostors who impose on the innocent and do them great harm.
